**ST. LOUIS BASED AIRCRAFT CHARTER COMPANY ANNOUNCES
ADDITION OF NEW MID-SIZE JET**

Aero Charter Adds Bombardier Learjet 55 to Existing Fleet

(ST. LOUIS/Feb. 2, 2011) Private jet charter, FBO and aircraft support company Aero Charter announces the recent addition of the Bombardier Learjet 55 to its available operating fleet.

“As demand for private charter services increases, we must continue to provide additional aircraft to our clients so as to meet their ever-increasing needs,” says John Morgenthaler, president of Aero Charter. “The addition of the Learjet 55 to our operating fleet will help us meet these demands.”

The addition of the Learjet 55 will allow Aero Charter to provide depth and flexibility for those passengers in need of fast and efficient travel. The plane provides additional choice and availability to the company’s existing fleet of mid-sized jets. Ideal for the business traveler, the Learjet 55 has the ability to accommodate up to six passengers, with specific detail given to the cabin’s overall comfort and design. The interior offers an executive club style seating arrangement with a fully enclosed aft lavatory and a large forward refreshment center. Luggage is never a problem thanks to the external and internal baggage compartments. The aircraft can travel at a cruise speed of 520 mph over a distance of 2,100 miles making the Learjet 55 a premium choice for business travelers.

(more)

Just as the specific needs of passengers vary, so too must the aircraft that assist them to their destinations. "We were looking for an aircraft to fill a specific niche within our existing operating fleet," says Morgenthaler. "We are very excited to offer the services of the Lear 55 to our clients."

Locally owned and operated since 1978, Aero Charter is based at the Spirit of St. Louis Airport in Chesterfield, Mo. (KSUS) and provides complete aircraft support services for business and private aircraft. The company offers worldwide flights with the majority of its clients flying throughout mainland United States, Canada, Mexico and the Caribbean. The fleet includes jet, turbine and piston aircraft. In addition to charter, Aero Charter provides full aircraft support services including aircraft management, maintenance, avionics, and Fixed Base Operator (FBO) ground support. Aero Charter's avionics department specializes in custom installations and repairs. In 1995, Aero Charter introduced Aero Travel, a full-service travel agency. The recipient of numerous safety awards, Aero Charter will expand with an additional hangar in summer 2011. For information call 636-537-0005 or visit www.aerocharter.com.
